

GIANT LEAPS LEARNING

Developing Tomorrow's Leaders... Today.

1:1 Coaching • Personalized Curriculum • Project-Based Learning

The world needs creative problem solvers, not better test takers.

Imagine knowing that your teen is future proof, prepared for college, for any career and on the path to success?

This is Giant Leaps.

Self-Awareness

- Sends of Global Community

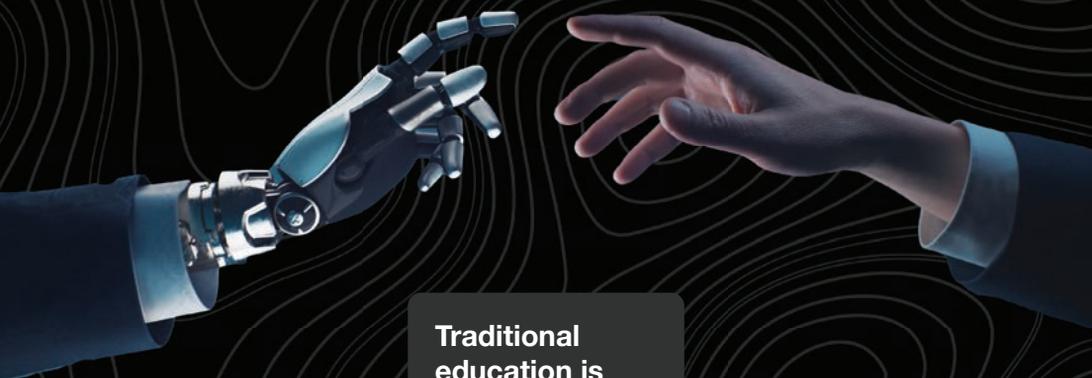

21st Century Skills

The Required Skill-set

- Communication Skills
- Creative Problem Solving
- Critical Thinking Skills
- Digital Literacy & Safety
- Leadership Skills
- Executive Function
- Decision Making Skills

The world is changing faster than ever before. Traditional education hasn't gotten the memo.

The future no longer works the way it used to. The world & workforce of tomorrow are fast moving targets.

Traditional education is missing the mark. Our classrooms look the same today as they did 100 years ago.

We're teaching the wrong skills. Curriculums neglect key skills that we know for certain our children will need.

Students aren't being prepared to succeed and lead in a world of rapid change.

What is Giant Leaps?

An online enrichment program for high school students that combines 1:1 coaching with a personalized curriculum. Our program develops self-awareness, global awareness, and critical thinking skills to prepare teens for success in college, careers and life beyond.

We introduce teens to concepts, ideas and technologies that are transforming the way we live, learn and work. We have them consider how their unique strengths and interests fit into that future. They explore disruptive technologies and topics from AI to Cryptocurrency to Gene Editing and imagine the challenges and opportunities that may arise. In doing so they learn about themselves, the learn about where the world is headed and they learn the critical thinking skills that they'll need to be a leader and find success in any career they choose.

There's no tests, no memorization, and no stress. Our students learn through curiosity, problem solving and creative thinking. Our students end up better prepared for college, and for a career, with less anxiety and more confidence.

Core Elements

1:1 Coaching

Students meet weekly over Zoom with their dedicated Success Coach and have unlimited access to them over our messaging platform to help them overcome challenges and motivate them to push themselves to dig deeper.

Strengths Focus

Students & their parents begin the program with a strengths assessment. Strengths are woven into the program and this helps them identify their natural gifts and creates a common language for discussions at home.

InnerWork™ Prompts

Students complete weekly self-reflective activities that develop self-awareness and often lead to breakthrough realizations. These activities enhance writing skills and create healthy habits of reflection.

21st Century Toolkit

Students learn about and research topics that interest and engage them, using our 21st Century Toolkit to guide their inquiry. They learn methods to find, analyze and use information to make better decisions.

Individualized Curriculum

Each student's curriculum is personalized for them based on their strengths and interests. The program adapts at each step to their choices to ensure engagement and curiosity is maximized and inevitable

Family Discourse

Students receive weekly prompts and guidance to spark meaningful conversations at home. They learn how to ask better questions and dramatically improve communication skills.

Challenge Activities

The program incorporates multiple types of challenges designed to encourage social-emotional wellness, promote healthy habits and to develop a real sense of confidence.

Learning Journey Portfolio

Certificates and badges are earned for activities completed in the program which can be securely shared in an aggregated portfolio for college admissions.

Students will...

- Meet 1:1 weekly with their dedicated Success Coach.
- Imagine the future & consider how their unique strengths and interests fit into that world.
- Explore topics from AI to Cryptocurrency to Gene Editing and imagine the challenges and opportunities that may arise.
- Complete lessons on critical thinking, active listening, credible information sources, leadership skills, cognitive bias and more.
- Learn about themselves, about where the world is headed and practice the skills that they'll need to be a leader and find success in any career the choose.
- Engage with their families in entirely new ways through meaningful discourse and discussion.

Schools do a good job of teaching students where the world has been but a terrible job of showing them where it could be going.

The Benefits...

- Promotes Curiosity & Creativity
- Encourages Self-Discovery
- Increases Confidence
- Develops Critical Thinking & Creative Problem Skills
- Provides Endless Opportunities for Personal Growth
- Introduces Students to Relevant Career Pathways
- Provides a Differentiator for College Admissions

Topic Examples

We introduce teens to concepts, ideas and technologies that are transforming the way we live, learn and work. They explore these disruptive technologies and imagine the challenges as well as the opportunities that may arise.

Example Program Framework
All programs are customized.

Certificates & Badges

Students earn shareable certificates and badges for accomplishments, completing lessons, and developing skills.

The image displays two screenshots of the Giant Leaps Learning platform. The top screenshot shows a 'CERTIFICATE OF ACHIEVEMENT' for Chris Adams, issued on May 31, 2021. The certificate features the Giant Leaps Learning logo, a QR code, and a signature. Below the certificate is a social sharing section with icons for LinkedIn, Facebook, Twitter, and Instagram. The bottom screenshot shows the 'Chris Adams / Achievement Portfolio' page. It includes a 'Wallet' tab and a 'Transcript' section. The transcript lists several achievements: 'Giant Leaps Learning Pilot Program Graduate' (May 31, 2021), 'StrengthFinder Super Powers' (June 1, 2021), 'Achievement: Wonder' (June 1, 2021), 'Achievement: Reflection' (June 1, 2021), 'Achievement: Discussion' (June 1, 2021), 'Achievement: Critical Thinking' (June 1, 2021), and 'Achievement: Problem Solving' (June 1, 2021). Each achievement is represented by a unique badge with the Giant Leaps Learning logo and a star icon.

““

It gave me new insight on how we're at the brink of a new age. In school, with no context on what the future is going to be... how are we going to be prepared for it?

I learned more about my position in the world, and who I want to surround myself with. I feel more ready for the future now.

Brooke
Giant Leaps Student

““

You don't have these conversations in school or think about how it could affect your future. In school you're just writing down notes and not connecting it to anything. I love the

creativity that it brought out in me and also like my new outlook, like I feel like I kind of have a new outlook on the world.
